ABOUT LSPOR

BRANCH: Scientific and research excellence, member engagement, education and training, communication and collaboration

LEAVES: Optimal coverage, patient equity, transparency, efficiency, effectiveness, and fairness of healthcare to improve health

TRUNK: Registries, real world data, cost effectiveness analysis, cost-utility analysis, budget impact models

ROOTS: Data and local registries generation/capacity building in pharmacoeconomics and outcome research
MISSION
To increase the efficiency, effectiveness, and fairness of healthcare to improve health.

SCOPE
LSPOR’s scope and sphere of influence includes outcomes researchers, health technology developers and assessors, regulators, health economists, health care policy makers, payers, providers, patients, populations, and society.

VISION
LSPOR is the leading scientific and educational organization for health economics and outcomes research and their use in decision making to improve health.

LSPOR is a non-profit 1204 public organization for educational and scientific purposes, as defined by the Lebanese Ministry of Interior and Municipalities.

ISPOR is the Lebanon Chapter of ISPOR, the International Society for Pharmacoeconomics and Outcomes Research.

ISPOR is the Leading Global Professional Society in Pharmacoeconomics. Founded in 1995 as an international multi-disciplinary professional membership society, the International Society for Pharmacoeconomics and Outcomes Research (ISPOR) aims to advance the policy, science, and practice of pharmacoeconomics (health economics) and outcomes research (the scientific discipline that evaluates the effect of health care interventions on patient well-being including clinical, economic, and patient-centered outcomes).
MESSAGE FROM THE PRESIDENT

We recognize that there are three dimensions to health care—quality, access, and affordability. The problem facing all societies is how to balance the three. This is what LSPOR is about—the trade-offs and compromises to maximize quality care, accessibility for all, and affordability. These trade-offs are a great challenge for all stakeholders. LSPOR is an organization that exists to help meet this challenge by working together with payers demanding greater evidence of value, and helping to establish what is feasible, given data, costs, and the science, to improve methods, the evidence base, and decision making, over time.

LSPOR is aiming to promote health economics and outcomes research (HEOR) to become the tool for evidence-based decision makings in health technology assessment; and supporting the next generation of researchers, by providing forums and opportunities both for learning and for exchanging important new ideas and approaches.

LSPOR will help to drive the discussion for creating incentives in health care systems to achieve better outcomes, and creating the tools and systems to measure performance. As a membership organization of individuals and not companies, LSPOR offers an unbiased perspective in local conversations and acts as the catalyst for dialogue and information-sharing on key topics. Our organization is a neutral platform dedicated to advancing key discussions and knowledge across all key stakeholders.

Quality and integrity are the hallmarks of LSPOR, and we will continue to prove that through our conduct, meeting, educational activities, and various initiatives. I encourage future members to get involved—to volunteer and to contribute their expertise in advancing our mission and goals of our Society. Thus, I invite you to go over the membership brochure and explore the opportunities and conditions to join LSPOR and gain an opportunity to network with professionals in your field or similar fields that will increase your awareness and scientific knowledge in pharmacoeconomics, health economics, and patient health outcomes.

LSPOR Lebanon Chapter
MISSION STATEMENTS

Spread and emphasize the importance of pharmacoeconomics and outcomes research in Lebanon.
Build, develop, and ensure Regional Chapter membership representation from health care researchers, health care practitioners, and health care decision makers who are interested in pharmacoeconomics and outcomes research.

Serve as a bridge in bringing together Lebanese researchers, health care practitioners, and decision makers interested in pharmacoeconomics as well as members of the pharmaceutical medical device/diagnostics industry, health-related organizations, and academia.
Act as a resource at a local level for individuals interested in pharmacoeconomics and outcomes research and its use in health care decisions.
Provide an opportunity for ISPOR Lebanon Chapter members to become more familiar with the activities of ISPOR as well as participate in its activities.

STRATEGIC PILLARS

SCIENTIFIC AND RESEARCH EXCELLENCE: ISPOR is committed to strengthening the integrity, advancement and the understanding and use of health economics and outcomes research among researchers, health technology developers and assessors, regulators, health economists, health care policy makers, payers, providers, patients, populations, and society.

MEMBER ENGAGEMENT: Through its membership and stakeholder groups, ISPOR has access to the ideas, knowledge, skills, and experiences that enable achievement of its mission. ISPOR offers membership benefits that are valued and essential in members’ professional growth.

EDUCATION AND TRAINING: Knowledge and skill building are at the core of the ISPOR mission. ISPOR will lead efforts to strengthen and expand capabilities in health economics and outcomes research.

COMMUNICATION AND COLLABORATION: ISPOR will be a valued and reliable resource for translating knowledge into practice for decision makers and stakeholders who include members, providers, payers, patients, professional societies, foundations, health authorities, the media, and others.

ORGANIZATIONAL VALUES: ISPOR embraces a core set of values and standards that underlie all that we do.
